EDUCATION

Texas A&M University

College Station, TX

Bachelor of Science in Computer Science; GPA: 3.8/4.0

May 2026

- Relevant Coursework: Software Engineering, Algorithms, Operating Systems, AI
- Completed writing-intensive coursework including specifications, user stories, and retrospectives.

EXPERIENCE

AIPHRODITE

College Station, TX

Technical Lead & Full Stack / ML

Sep. 2024 – Present

- Architected FastAPI backend serving computer vision embeddings and outfit recommendations for 500+ wardrobe items, reducing query latency by 40%.
- Developed RAG-powered AI fashion advisor using LangChain and OpenAI embeddings, improving click-through rate on recommendations by 25%.
- Led 6-person engineering team through agile sprints with daily standups, reducing PR rework rate by 35%.

applyeasy.tech

College Station, TX

Founder & Full-Stack Developer

January 2024 – Present

- Built end-to-end job application automation pipeline using n8n, reducing manual application time by 75%.
- Designed and integrated OpenAI API for job relevance scoring and intelligent resume tailoring.
- Founded applyeasy.tech, a SaaS platform automating job applications, serving early adopters with a seamless user experience.

PROJECTS

carlosOS – Custom Unix Shell | C, Linux, Systems Programming

October 2024

- Implemented Unix-style shell with process management, including fork/exec, pipelines, and I/O redirection.
- Developing educational operating system from scratch, focusing on bootloader, kernel, and system calls.

Aggie Events | TypeScript, Next.js, React, Node.js, PostgreSQL

May 2024

- Built full-stack event discovery platform with responsive Next.js frontend and Node.js API.
- Extended PostgreSQL schema reducing query latency by 40% through optimized indexing.

ApplyEasy Job Automation Engine | n8n, OpenAI API, Google APIs, LaTeX

March 2025

- Architected core automation engine using n8n workflow primitives, processing 100+ job postings daily.
- Implemented reliable data pipelines with structured error handling and PDF hosting on GitHub.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C/C++, Java, SQL

Frameworks: React, Next.js, FastAPI, Node.js, LangChain

Databases & Tools: PostgreSQL, Docker, Git, GitHub Actions, Linux
