

Carlos Luna-Peña

Computer Science @ Texas A&M
carlunpen@gmail.com | GitHub | LinkedIn | applyeasy.tech

EDUCATION

Texas A&M University

B.S. in Computer Science

College Station, TX

Aug. 2023 – Present

- Major GPA: 3.62/4.00. Relevant coursework: Software Engineering, Algorithms, AI.
- Engaged in writing-intensive work with specs, retrospectives, (*CSCE 331, etc.*)

EXPERIENCE

AIPHRODITE (Aggies Create)

Technical Lead & Full Stack / ML

College Station, TX

Sep. 2025 – Present

- Implemented machine learning models for wardrobe item tagging and search, improving query accuracy and system performance.
- Led team in sprints and reviews, enhancing project workflows and stability.
- Developed AI chatbot for wardrobe advice using LangChain and OpenAI models.

applyeasy.tech

Founder & Full-Stack / Automation Engineer

Remote

2025

- Founded and developed a SaaS platform streamlining job applications with automated tooling and AI-powered filtering, improving user efficiency.
- Engineered backend using n8n and OpenAI, handling large-scale data processing with operational reliability.
- Built and deployed a companion mobile app in React Native to manage applications on the go.

PROJECTS

Aggie Events

Aug. 2024 – Present

- Developed full-stack web application with Next.js, improving user engagement through modern UI/UX practices.
- Optimized database query performance by implementing strategic indexing, reducing latency significantly.

ApplyEasy Job Automation Engine

2025

- Created a robust automation system for job applications, including scraping, data filtering, and personalized resume generation.
- Utilized n8n for backend orchestration, ensuring smooth API interactions and operational logs.

LaTeX Resume Builder & CLI/Action

2025

- Engineered a template-based LaTeX resume builder capable of compiling JSON data into polished PDFs.
- Automated resume generation through a CLI tool, facilitating integration and employment of LaTeX in workflows.

TECHNICAL SKILLS

Programming: TypeScript, Python, C/C++, SQL

Frameworks: React, Next.js, Node.js, Tailwind CSS

Tools: Docker, Git, n8n, Apify, GitHub Actions, LaTeX

Platforms: PostgreSQL, SQLite, Linux
