EDUCATION

Texas A&M University

College Station, TX

Bachelor of Science in Computer Science; GPA: 3.8/4.0

May 2026

- Relevant Coursework: Software Engineering, Algorithms, Operating Systems, AI
- Completed writing-intensive coursework including specifications and peer evaluations.

EXPERIENCE

AIPHRODITE

College Station, TX

Technical Lead & Full Stack / ML

Sep. 2024 – Present

- Architected FastAPI backend serving computer vision embeddings and recommendations, optimizing query latency by 40%.
- Developed AI fashion advisor using LangChain and OpenAI, enhancing outfit recommendation click-through rates by 25%.
- Led a 6-person engineering team through agile sprints, reducing rework rate by 35%.

applyeasy.tech

College Station, TX

Founder & Full-Stack Developer

January 2024 – Present

- Built end-to-end job application automation pipeline with n8n, reducing manual application time by 75%.
- Integrated Google Workspace APIs for automated document generation, ensuring reliable delivery through GitHub.
- Founded applyeasy.tech, a SaaS platform utilizing AI for job application processes, attracting early users.

PROJECTS

carlosOS – Custom Unix Shell | C, Linux, Systems Programming

October 2024

- Built an educational OS with a custom bootloader and kernel, implementing memory management and process scheduling.
- Developed a Unix-style shell supporting process management and I/O redirection, utilizing concepts from coursework.

Aggie Events | TypeScript, Next.js, React, PostgreSQL

November 2024

- Developed a full-stack event discovery platform, optimizing PostgreSQL schema to improve query latency by 40%.
- Implemented Google OAuth authentication and secure session management, enhancing user experience and security.

ApplyEasy Job Automation Engine | n8n, OpenAI API, Apify, Google APIs

2025

- Architected core automation engine orchestrating job scraping, LLM-based filtering, and email outreach using n8n.
- Designed LaTeX resume template system for automated PDF generation and GitHub hosting.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C/C++, Java, SQL

Frameworks: React, Next.js, FastAPI, Node.js, LangChain

Databases & Tools: PostgreSQL, Docker, Git, GitHub Actions, Linux
