EDUCATION

Texas A&M University

College Station, TX

Bachelor of Science in Computer Science; GPA: 3.8/4.0

May 2026

- Relevant Coursework: Software Engineering, Algorithms, Operating Systems, AI
- Completed writing-intensive coursework including specifications and user stories.

EXPERIENCE

AIPHRODITE

College Station, TX

Technical Lead & Full Stack / ML

Sep. 2024 – Present

- Led a 6-person team to develop a FastAPI backend serving 500+ wardrobe items, achieving a 40% reduction in query latency.
- Implemented AI-powered fashion recommendation engine using LangChain and OpenAI, improving click-through rates by 25%.
- Containerized microservices with Docker and set up a CI/CD pipeline using GitHub Actions for automated testing and deployment.

applyeasy.tech

College Station, TX

Founder & Full-Stack Developer

January 2024 – Present

- Developed an automation pipeline using n8n, processing 100+ job applications daily, reducing manual application time by 75%.
- Integrated OpenAI and Google APIs to automate resume tailoring and email outreach, enhancing efficiency by 90%.
- Built React Native mobile app for real-time application monitoring and preference adjustment.

PROJECTS

carlosOS – Custom Unix Shell | C, Linux, Systems Programming

October 2024

- Developed a Unix-style shell with process management and I/O redirection, applying concepts from systems coursework.
- Implemented memory management and process scheduling in x86 assembly, tested using QEMU.

Aggie Events | TypeScript, Next.js, React, Tailwind CSS, PostgreSQL

March 2025

- Designed and optimized PostgreSQL schema, reducing query latency by 40% for event discovery platform.
- Built responsive React components for event search and user interactions, ensuring mobile-first design.

ApplyEasy Job Automation Engine | n8n, OpenAI API, Google APIs, LaTeX

August 2025

- Architected automation engine for job scraping and LaTeX resume generation using n8n and OpenAI API.
- Implemented robust error handling and logging, processing over 100 job postings daily.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, C/C++, Java, SQL

Frameworks: React, Next.js, FastAPI, Node.js, LangChain

Databases & Tools: PostgreSQL, Docker, Git, GitHub Actions, Linux
