EDUCATION

Texas A&M University

College Station, TX

Bachelor of Science in Computer Science; GPA: 3.8/4.0

May 2026

- Relevant Coursework: Software Engineering, Algorithms, Operating Systems, AI
- Completed writing-intensive coursework including specifications, user stories, and retrospectives.

EXPERIENCE

AIPHRODITE

College Station, TX

Technical Lead & Full Stack / ML

Sep. 2024 – Present

- Led a 6-person engineering team to build a Next.js/React frontend with Tailwind CSS, integrating real-time outfit recommendations via FastAPI backend and PostgreSQL.
- Developed an AI fashion advisor using LangChain and OpenAI, improving click-through rates on recommendations by 25%.
- Architected a FastAPI backend serving computer vision embeddings to 500+ wardrobe items, reducing query latency by 40%.

applyeasy.tech

College Station, TX

Founder & Full-Stack Developer

January 2024 – Present

- Founded applyeasy.tech, a SaaS platform automating job applications, reducing manual application time by 75%.
- Built an end-to-end job application automation pipeline using n8n, processing over 100 jobs per day.
- Integrated Google Workspace APIs for automated document generation, ensuring reliable delivery of compiled PDFs.

PROJECTS

carlosOS – Custom Unix Shell | C, Linux, Systems Programming

October 2024

- Implemented a minimal x86 bootloader and kernel with custom memory management and process scheduling.
- Built a userland shell supporting pipelines, I/O redirection, and background job control.

Aggie Events | TypeScript, Next.js, React, Node.js

August 2023

- Built a full-stack event discovery platform with an 8-person team, featuring a responsive Next.js frontend and Node.js API.
- Extended PostgreSQL schema and added composite indexes, reducing p95 query latency by 40%.

ApplyEasy Job Automation Engine | n8n, OpenAI API, Apify, Google APIs

June 2024

- Architected an automation engine for orchestrating job scraping, LLM-based filtering, and LaTeX resume generation.
- Designed a LaTeX resume template system with JSON configuration, automating PDF compilation and hosting.

TECHNICAL SKILLS

Languages: TypeScript, Python, JavaScript, C/C++, Java, SQL

Frameworks: React, Next.js, FastAPI, Node.js, LangChain

Databases & Tools: PostgreSQL, Docker, Git, GitHub Actions, Linux
