

Carlos Luna-Peña

Computer Science @ Texas A&M

carlunpen@gmail.com | GitHub: clmoon2 | LinkedIn: carlos-luna | applyeasy.tech

EDUCATION

Texas A&M University

College Station, TX

B.S. in Computer Science (Major GPA: 3.62/4.00)

Aug. 2023 – Present

- Selected Coursework: Foundations of Software Engineering, Algorithms, Operating Systems, AI, Security, Intro to Computer Systems.
- Focused on writing-intensive work: specs, user stories, retrospectives, demos, peer evaluation.

EXPERIENCE

AIPHRODITE (Aggies Create)

College Station, TX

Technical Lead & Full Stack/ML

Sep. 2025 – Present

- Implemented CV tagging and embedding search with FastAPI; achieved 95% accuracy across 1000+ items.
- Designed an outfit recommender improving click-through by 30% for recommended outfits.
- Led a 4-person team with sprints, PR reviews, reducing rework by 25%.

applyeasy.tech

Remote

Founder & Full-Stack/Automation Engineer

2025

- Built applyeasy.tech, automating job applications: role scraping, LLM filtering, resume generation.
- Orchestrated backend using n8n; supported 150+ job posts/day, cutting application time by 80%.

PROJECTS

carlosOS (Educational OS)

In Progress

- Implemented bootloader and kernel; set up QEMU-based environment for educational practice.
- Designed scheduler, syscalls for process management; added userland command handling.

Aggie Events

Aug. 2024 – Present

- Built responsive UI with TypeScript/Next.js; integrated Google OAuth for secure access.
- Tuned database queries, reducing p95 latency by 40% with optimized Postgres schemas.

LaTeX Resume Builder & CLI/Action

2025

- Created JSON schema-to-LaTeX renderer; automated resume creation, sharing via GitHub Actions.
- Documented use-case implementations, aiding adoption by developers.

TECHNICAL SKILLS

Languages: TypeScript, Java, Python, C/C++, SQL

Frameworks: React, Next.js, React Native, Tailwind, Node.js, FastAPI

DevOps/Tools: Docker, Linux, Git, GitHub Actions, LaTeX, n8n, Apify

Concepts: AI/automation workflows, RAG systems, REST APIs, scheduling, OS design
